

After they chased the Big Bad Wolf, the three little pigs lived together in the house of bricks. They decided they needed to make a barrier just in case the wolf returned. They could either build a very high fence or dig a very wide deep trench around the house. Decide which would be best and why. Then help the Three Little Pigs choose six things from Bob the Builder's Yard to help them build their barrier.

Why did you choose some items and not others?

spade 	digger 	nails 
hammer 	screwdriver 	wood 
super glue 	sand 	bricks 
cement 	saw 	glass
